Leading exporters of food & nonfood products from India

About Us

The company was established with intention to offer quality products & services at competitive prices to international buyers utilising extensive experience of cofounders in procurement, sales & marketing, international logistics, export documentation and procedures. Setu team has combined experience in export and import field for more than 2 decades.

We work in varied sectors but we specialise and focus on food industry. Our understanding and commitment to quality products makes us strive to achieve this goal by partnering with right supply chain partners who have setup state-of-art infrastructure, internationally accredited certifications, committed to on time delivery schedules, prompt communication and many other important aspects of international business.

Our Mission

“Our mission is to provide quality products & services with on time deliveries at competitive prices to its buyers; continuous business & optimum earnings to channel partners, vendors, logistics providers, etc. and stable income, environment of trust, growth & family to its employees.”

Our motto is delivering quality products & services at competitive prices and ensuring on time deliveries.

Besides, we have packing facility for range of speciality flour, spices, pulses, digestives, etc. packed under controlled conditions which are certified by FSSAI, USFDA, etc. for adhering to good manufacturing practices.

Our Vision

“To become a valuable asset to all stakeholders internal and external that is employees, channel partners, buyers, vendors, logistic providers, etc.”

Our Certifications

SETU is certified by various nationally and internationally accredited institutions and organisations which has enriched our customers' trust on us.

Being a FSSAI certified company, we are committed to maintain sustainable sourcing of quality raw material, semi-finished good, finished goods, etc. Sourcing of quality raw materials mainly cultivated by following good agricultural practices and processing under stringent quality standards.

Packaging

We can make products available in retail packaging as well bulk packing and packing size range from 100g to 50kg or any other pack sizes depending on the customers' requirement. The available packaging types are plastic pouches, plastic jars, glass bottles, duplex boxes, PP bags and many other types of packaging depending upon customers' requirement.

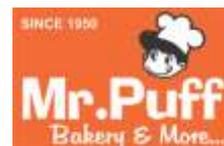

Private Label products

We offer a wide range of standard and customised products in private label or buyer's brand. The buyers will be assisted in logo design, package design, cylinder development, packing material development & storage. The packing material can be shifted to vendor premises based on ordered quantities and stock statement of the same will be shared as and when required.

Brands We Do

We are engaged in international sales of branded products and also offer standard or customised products in private labels, bulk and institutional packs.
